Bond Property Tapped For Sales & Marketing For Capricho Residences

Bond Property Marketing Group is pleased to announce that it has been retained as the exclusive northeast sales and marketing consultant for Capricho Residences on the Mexican Caribbean.

Located on Playa Mujeres, a 900-acre gated resort community on the Mexican Caribbean, Capricho Residences will feature 66 two, three, and four bedroom residences, four penthouse residences, and a boutique hotel with 16 luxury suites. All homes will include unique outdoor spaces with stunning views of the Caribbean, plunge pools, and rooftop terraces or gardens with fire pits.

When completed in September 2009, residents at Capricho Residences will benefit from access to two 18-hole Greg Norman signature ocean front golf courses, a 2,300 ft white sand beach, and a 175-slip mega-yacht marina—the first of its kind in the region. Capricho Residences will remain a remote five-star destination as more than 70 percent of the property will remain in its natural state, covered only by lakes, mangroves, a lagoon, and the neighboring eco-reserve, Isla Contoy.

The project's design boasts a striking Mayan aesthetic with unsurpassed interiors from renowned designers Looney & Associates. Custo Barcelona, the internationally acclaimed design house, will create the interiors of Capricho Residences' spa, hotel, restaurants, private beach club, and public areas.
